

Sheringham Woodfields School

Curriculum Information for Families 2026-2027

Term: Autumn 1

Class: Oak

Strand and Profile	Profiles in Class	Ideas for Home
Communication and Literacy	In our English lessons, we will be reading the book Three Little Vikings by Beth Woollvin. We will be following our Talk 4 Writing scheme beginning with our immersion into the book, story and characters through engaging, imaginative and fun activities. Pupils will build their vocabulary and narrative skills with the support of our sign-along routines. We will learn our 5 sentence story before mapping it out. We will then innovate aspects of the story and create our own story. Pupils will have a weekly Library session where they can read for pleasure while working on focussed reading skills. Pupils will also complete 1:1 Reading each week.	Read your book from the Library at home with your family before bringing it back to school. Our Library session is on a Tuesday. Please return books each week so they can be changed over. Twinkl Reading books should be brought to school each day as 1:1 Reading can happen at different times in the week.
Mathematics and Problem Solving	In our Maths lessons, our topic will be Place Value, focusing on addition and subtraction. We will follow our White Rose Maths curriculum where pupils will learn through a concrete, pictorial and abstract pattern of learning. Pupils will complete addition and subtraction tasks using concrete resources and pictures before applying this knowledge into number problems and calculations. Place value knowledge and number work will also be linked with our weekly Cooking sessions. Pupils will read measurements and amounts during their time in the Life Skills Kitchen. In Computing , we will start the term off with a lesson on e-safety and how to remain safe online. Our topic this half term is around combining words and pictures to create something. Pupils will learn the skills to complete this before making a card or poster on a laptop/computer.	Can you look for opportunities to use numbers in everyday life? This might be counting objects in your home while tidying toys away, cooking or sorting objects out. Practise adding and taking away using familiar objects. Remember to use your safety knowledge when on devices at home. Never communicate with anyone you do not know online. Always monitor your child's devices and communication online.
Personal Development	In our PSHE/Personal Development lessons pupils will learning about recognising, naming and talking about different emotions. Pupils will build routines using our zones of regulation resources to identify how they feel and be encouraged to explain why. Pupils will develop strategies to support their emotional regulation.	Talk about feelings during everyday activities and encourage your child discuss how they are feeling. Please feel free to communicate any elements of PSHE that we can support your child with in school.
Physical Development	In our P.E. lessons pupils will be working on multi-skills and learning how to play and take part in P.E. games. Pupils will complete a range of games and activities to develop their P.E. skills. We will also be focusing on team work, playing fairly and respecting our personal space. Pupils have a community visit to The Reef this half term for swimming lessons.	Engage in physical activities regularly. This could involve walking, running, dancing, body percussion or yoga. Please remember swimming kits on Fridays.
Understanding the World	Our subject this half term is Geography . Pupils will be learning about human and physical geography while comparing and contrasting locations. We will also have a themed day of MFL where we will be learning about Germany! We will find Germany on a map, learn about their culture, life, food, language and lots more! We will also have an R.E. day all about Prayer and Worship.	
Expression and Creativity	Our topic in Art this half term is colour, texture and shape. Pupils will learn about specific artists and complete a project using the skills they learn throughout the topic. s	Pupils can be encouraged to create more art work at home using the skills they have learnt in our lessons.
Personalised Learning	Pupils will complete activities towards their EHCP targets and PLGs every week. Learning will be sent home to families via EFL.	
Other information	Claire has PPA on Tuesday mornings. Tracey will teach our Library and Understanding the World lessons during this time. P.E. will be on Monday afternoons and Swimming will be on Friday morning.
