DATA PROTECTION POLICY

Approved by SMT: 26 th September 2023	Approved by Staff: 3 rd October 2023	Approved by Governors: 7 th December 2023
Next Review date: Autumn 2025	Person(s) responsible for review: SLT	

Throughout this document we refer to Data Protection Legislation which means the Data Protection Act 2018 (DPA2018), the United Kingdom General Data Protection Regulation (UK GDPR), the Privacy and Electronic Communications (EC Directive) Regulations 2003 and any legislation implemented in connection with the aforementioned legislation. Where data is processed by a controller or processor established in the European Union or comprises the data of people in the European Union, it also includes the EU General Data Protection Regulation (EU GDPR). This includes any replacement legislation coming into effect from time to time.

This policy includes data retention arrangements, subject access requests and staff ICT usage/security arrangements. Given the nature of the school we do not feel it appropriate to ask pupils to sign an ICT usage/acceptance form. Instead they follow the schools E-Safety policy.

It also takes into account the General Data Protection Regulations as required.

In addition, this policy complies with regulation 5 of the Education (Pupil Information) (England) Regulations 2005, which gives parents the right of access to their child's educational record.

The school is registered as a data controller with the Information Commissioner's Office and renews this registration annually.

5. Data protection principles

The Data Protection Act 2018 is based on the following data protection principles, or rules for good data handling:

6. Roles and responsibilities

The governing board has overall responsibility for ensuring that the school complies with its obligations under the Data Protection Act 2018.

Day-to-day responsibilities rest with the headteacher, or the School Business Manager in the headteacher's absence. The headteacher will ensure that all staff are aware of their data protection obligations, and oversee any queries related to the storing or processing of personal data.

Staff are responsible for ensuring that they collect and store any personal data in accordance with this policy. Staff must also inform the school of any changes to their personal data, such as a change of address.

7.1 Pupils and parents

We hold personal data about pupils to support teaching and learning, to provide pastoral care and to assess how the school is performing. We may also receive data about pupils from other organisations including, but not limited to, other schools, local authorities and the Department for Education.

This data includes, but is not restricted to:

- Contact details
- Results of internal assessment and externally set tests
- Data on pupil characteristics, such as ethnic group or special educational needs
- Exclusion information
- Details of any medical conditions
- Details of any Safeguarding concerns
- Details of any Behaviour(s) seen within school

We will only retain the data we collect for as long as is necessary to satisfy the purpose for which it has been collected.

We will not share information about pupils with anyone without consent unless the law and our policies allow us to do so. Individuals who wish to receive a copy of the information that we hold about them/their child should refer to sections 8 and 9 of this policy.

Once our pupils reach the age of 13, we are legally required to pass on certain information to Norfolk County Council, which has responsibilities in relation to the education or training of 13-19 year-olds. Parents, or pupils if aged 16 or over, can request that only their name, address and date of birth be passed to Norfolk County Council by informing the School Business Manager.

We are required, by law, to pass certain information about pupils to specified external bodies, such as our local authority and the Department for Education, so that they are able to meet their statutory obligations.

7.2 Staff

We process data relating to those we employ to work at, or otherwise engage to work at, our school. The purpose of processing this data is to assist in the running of the school, including to:

- Enable individuals to be paid
- Facilitate safe recruitment
- Support the effective performance management of staff
- Improve the management of workforce data across the sector
- Inform our recruitment and retention policies
- Allow better financial modelling and planning
- Enable ethnicity and disability monitoring
- Support the work of the School Teachers' Review Body

Staff personal data includes, but is not limited to, information such as:

- Contact details
- National Insurance numbers
- Salary information
- Qualifications
- Absence data
- Personal characteristics, including ethnic groups
- Medical information
- Outcomes of any disciplinary procedures

We will only retain the data we collect for as long as is necessary to satisfy the purpose for which it has been collected.

We will not share information about staff with third parties without consent unless the law allows us to.

We are required, by law, to pass certain information about staff to specified external bodies, such as our local authority and the Department for Education, so that they are able to meet their statutory obligations.

Any staff member wishing to see a copy of information about them that the school holds should contact the School Business Manager.

8. Subject access requests

Under the Data Protection Act 2018, all stakeholders have a right to request access to information the school holds about them. This is known as a subject access request.

Subject access requests must be submitted in writing, either by letter, email or fax. Requests should include:

- The subject's name
- A correspondence address
- A contact number and email address
- Details about the information requested

Alternatively, a request can be made verbally in person or over the phone. If over the phone, verification of identity will still be required.

The school will not reveal the following information in response to subject access requests:

- Information that might cause serious harm to the physical or mental health of the pupil or another individual
- Information that would reveal that the child is at risk of abuse, where disclosure of that information would not be in the child's best interests
- Information contained in adoption and parental order records
- Certain information given to a court in proceedings concerning the child

Subject access requests for all or part of the pupil's educational record will be provided within 15 school days. The school may need to make a charge in connection with the cost of delivering said papers.

If a subject access request does not relate to the educational record, we will respond within 30 calendar days.

If you are unable to make this request in writing, please call the school on 01263 820520 and ask to speak to the Business Manager.

Proof of your identification will be needed for the subject access request to be actioned.

9. Parental requests to see the educational record

Parents have the right of access to their child's educational record, free of charge, within 15 school days of a request.

Personal data about a child belongs to that child, and not the child's parents. This is the case even where a child is too young to understand the implications of subject access rights.

For a parent to make a subject access request, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

The Information Commissioner's Office, the organisation that upholds information rights, generally regards children aged 13 and above as mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents of pupils at our school may be granted without the express permission of the pupil.

The Information Commissioner's Office, the organisation that upholds information rights, generally regards children aged 12 and above as mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents of pupils at our school may not be granted without the express permission of the pupil.

If parents ask for copies of information, they will be required to pay the cost of making the copies.

10. Storage of records

- Paper-based records and portable electronic devices, such as laptops and hard drives, that contain personal information are kept under lock and key when not in use. All school provided laptops/devices will be encrypted.
- Papers containing confidential personal information should not be left on office and classroom desks, on staffroom tables or pinned to noticeboards where there is general access
- Where personal information needs to be taken off site (in paper or electronic form), staff must sign it in and out from the school office and use one of the schools secure rucksacks.
- Passwords must be at least 8 characters long containing letters and numbers (including upper case letters) are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded to change their passwords at regular intervals
- Encryption software is used to protect all portable devices and removable media, such as laptops
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures for school-owned equipment
- USB data/flash drives must not be used.
- Home/School diaries will be used to enable communication to take place between both school and home. Consent will be obtained to enable this to happen.

11. Disposal of records

Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely. Please see Appendix A which details out the school retention of records policy.

For example, we will shred or incinerate paper-based records, and override electronic files. We may also use an outside company to safely dispose of electronic records.

12. Training

Our staff and governors are provided with data protection training as part of their induction process and via our e-learning suite of training.

Data protection will also form part of continuing professional development, where changes to legislation or the school's processes make it necessary.

13. The General Data Protection Regulation

We acknowledge that the law is changing on the rights of data subjects and that the General Data Protection Regulation.

We will continue to review working practices and provide training to members of staff and governors where appropriate.

14. ICT Systems within the school

The school understands that ICT plays a very important part in the efficient running of the school. The school will:

- Provide devices for your sole use while you are a permanent full-time or part-time teacher at the school.
- Ensure devices are set up to enable you to connect to, and make effective use of, the school network.
- Ensure the relevant persons, such as the ICT Manager, have installed the necessary security measures on any school-owned device before your use - including, but not limited to, the following:
 - ✓ Firewalls
 - ✓ Malware protection
 - ✓ User privileges
 - ✓ Filtering systems
 - ✓ Password protection and encryption
 - ✓ Mail security technology
 - ✓ Tracking technology
 - ✓ Data encryption of all data stored on the school network

Ensure that all devices undergo the following regular checks and updates by the ICT Manager:

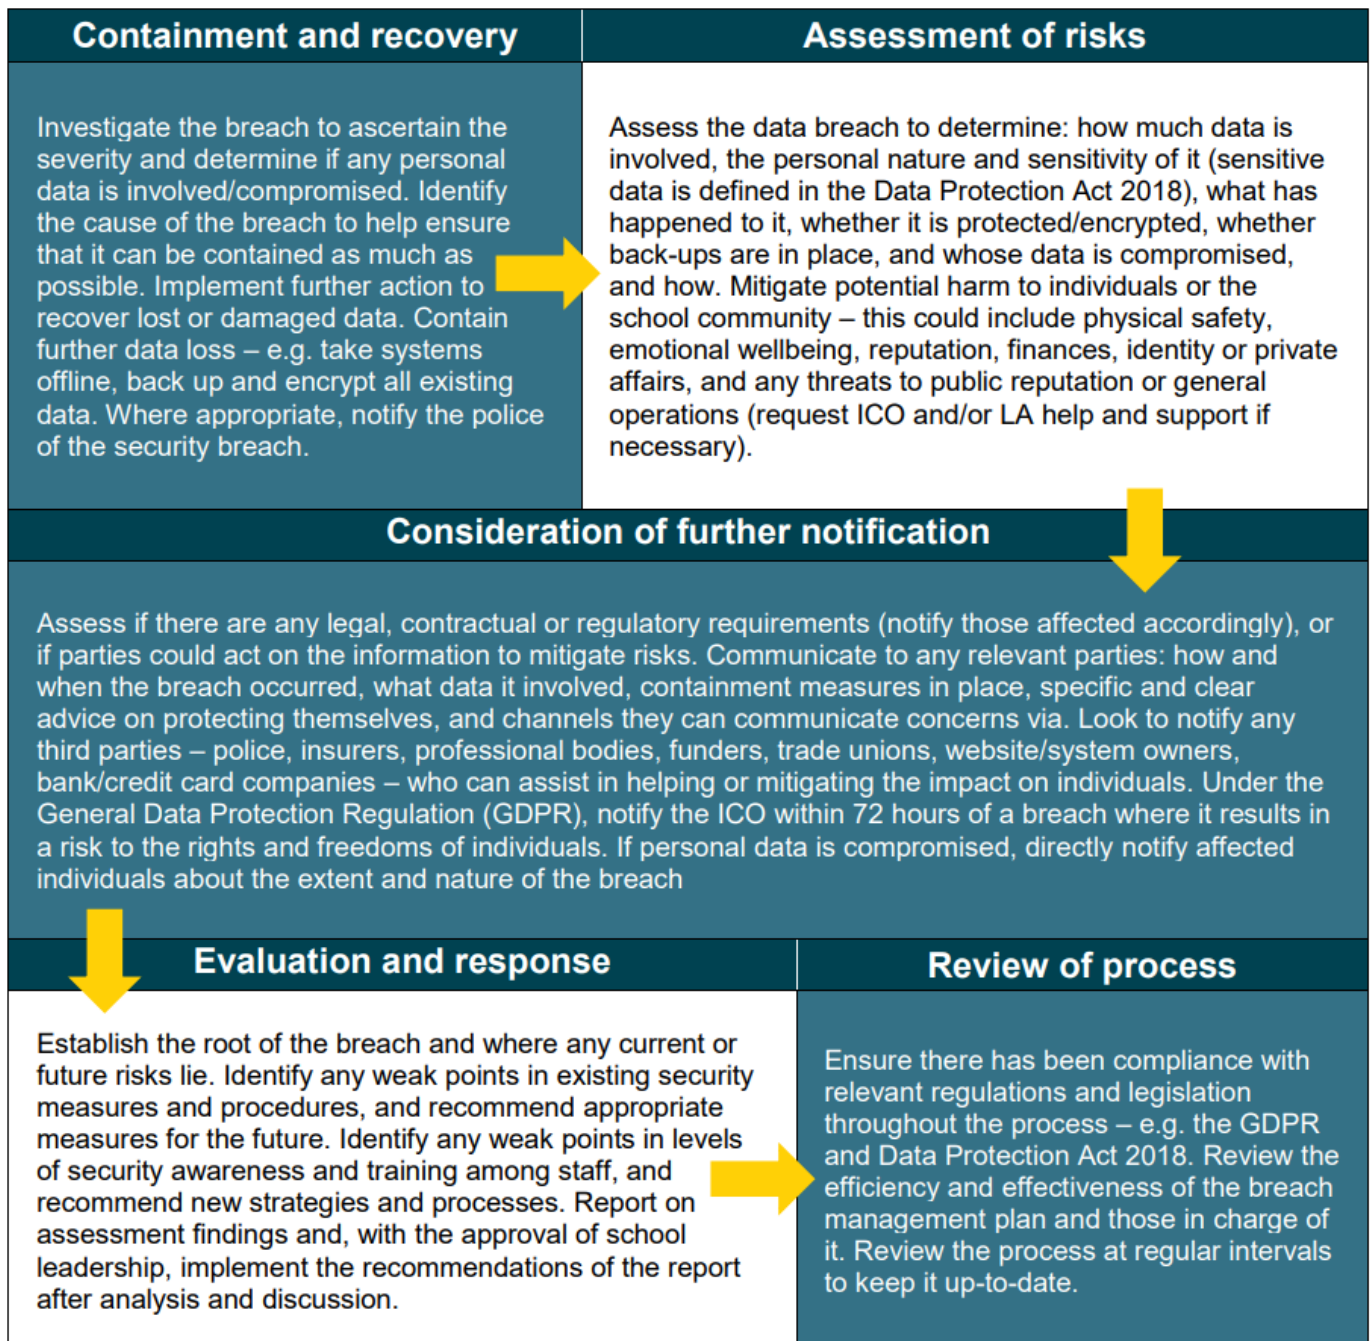

- ✓ Termly updates to malware protection
 - ✓ Termly software updates
 - ✓ Annual password re-set requirements
 - ✓ Termly checks to detect any unchanged default passwords
 - ✓ Malware scans in line with specific requirements
-
- Plan and manage the integration of devices into the school environment, and provide the professional development required to enable you to use the devices safely and effectively.
 - When required, expect you to pay an excess for accidental damage or loss repair/replacement costs, where loss or damage is a result of your own negligence.

15. Data breaches

It is hoped that with the robust systems in place, Data Breaches will be minimal, however the school understands that it has a duty of care to be able to record and respond to said breaches promptly.

All data breaches must be reported within 24 hours via the online form - <http://w.pfrms.co/e4ru4>
The form feeds directly into the schools data breach log which only key members of staff have access to. All submissions will automatically go to the schools appointed DPO.

Below is the process the school and DPO will then take with regards to recorded breaches

16. Monitoring arrangements

The Senior Leadership Team are responsible for monitoring and reviewing this policy.

The School Business Manager checks that the school complies with this policy by, among other things, reviewing school records annually.

This document will be reviewed when the General Data Protection Regulation comes into force, and then every 2 years.

At every review, the policy will be shared with staff and the governing board.

17. Further reading

This policy should be read in conjunction with the following school based policies and documents:

Youth support services

What is different about pupils aged 13+?

Once our pupils reach the age of 13, we also pass pupil information to our local authority and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

A parent / guardian can request that **only** their child's name, address and date of birth is passed to their local authority or provider of youth support services by informing us. This right is transferred to the child / pupil once he/she reaches the age 16.

Our pupils aged 16+

We will also share certain information about pupils aged 16+ with our local authority and / or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- post-16 education and training providers
- youth support services
- careers advisers

For more information about services for young people, please visit our local authority website.

- who is requesting the data
- the purpose for which it is required

- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
